

Management of Periodontal & Periimplant diseases through Advanced Technologies

Course Overview:

This one-day course (lecture & hands-on demo) will provide an overview of the etiology and risk factors associated with periodontal disease including implant-related disease, provide an explanation of periodontal disease progression, provide an overview of current treatment modalities using latest technologies. The course will include a summary of current literature highlighting various techniques and tools (GBR, GTR & laser) in management of periodontitis/ periimplantitis. The course will include live demonstrations undertaken on pig jaws.

Course Objectives:

- Understand how to correctly diagnose and classify various stages of periodontitis & peri-implantitis
- Learn treatment options of chronic periodontal disease using both conventional methods and laser to arrest disease progression & improve periodontal health
- Gain insight into when advanced treatment with lasers and regenerative surgery need to be considered in addition to or in conjunction with conventional treatments
- How to present treatment plans to patient and educate and motivate them in relation to periodontal and implant therapy and enhance patient acceptance.

Hands-on Demonstration:

- Learn how erbium laser meet criteria needed for periodontal regeneration
- Review step-by-step laser protocols for treatment of chronic periodontal disease
- Gain an understanding on REPAIR Perio and REPAIR implant protocols developed to provide advanced treatment option to assist in the management of periodontitis and peri-implantitis

Presenter: Dr Michael Danesh-Meyer (Periodontist)

Time: Friday 7th September 2018, 9:00am- 5:00pm

Venue: Institute of Dental Implants & Periodontics, Level 4, 142 Broadway, Newmarket, Auckland.

Fee: \$1285 (Inc. GST) Includes lunch, refreshments & course material

RSVP: Ph (09) 534-9002 or info@implantdentist.co.nz

Dr Michael Danesh-Meyer BDS MDS MRACDS (Perio) (Periodontist)

Dr Danesh-Meyer completed his Bachelors Degree in Dental Surgery (BDS) and Master of Dental Science (MDS) in Periodontology (with Distinction) from University of Otago, New Zealand. He was a Senior Clinical Lecturer at University of Otago and in full-time private practice limited to dental implants and periodontics prior to taking up a position as Clinical Assistant Professor in Periodontology at Temple University in Philadelphia from 1998-2000. He has been involved in preclinical and clinical research involving GTR/GBR, rhBMP-2 & dental implants and authored numerous articles and lectured both nationally and internationally on these subjects. In 2000 he established the Institute of Dental Implants & Periodontics and the Auckland Clinical Training Centre in Auckland, New Zealand. Dr Danesh-Meyer is a Member of the Royal Australasian Collage of Dental Surgeons, Fellow of the International Congress of Oral Implantologists,, ITI Fellow, He is a faculty member of gIDE (Global Institute for Dental Education, Loma Linda University) and is actively involved in teaching periodontics and implant dentistry.
